State Environmental Quality Review
NEGATIVE DECLARATION
Notice of Determination of Non-Significance

Project Number 202101

Date 11/17/2021

This notice is issued pursuant to Part 617 of the Implementing regulations pertaining to Article 8 (State Environmental Quality Review Act) of the Environmental Conservation Law.

The Town of Forestport as lead agency, has determined that the proposed action described below will not have a significant environmental impact and a Draft Impact Statement will not be prepared.

Name of Action: Town of Forestport – Wastewater Treatment Plant Upgrade and Sewage Effluent Disinfection Improvement Project – Forestport Sewer District.

SEQR Status:

Type 1

Unlisted

Conditioned Negative Declaration:

Yes

No

Description of Action:

Town of Forestport proposes the following actions:

An upgrade to the wastewater treatment plant that consists of installation of chlorination/dechlorination precast concrete tanks; chemical metering pump, day tank and piping; rehabilitate two (2) sand filter beds including: underdrain; liner; and media material; convert two (2) existing gravity sand filter beds to pressure dosing beds; including underdrain; liner, piping and media; and modify the dosing chamber discharge piping; new generator; electrical service upgrade; miscellaneous work and site restoration.

Federal/State/Local funding sources are being considered to finance this project.

Location:

(Include street address and the name of the municipality/county. A location map of appropriate scale is also recommended.)

Town of Forestport/Oneida County – 12079 River Street.

Reasons Supporting This Determination:

(See 617.7(a)-(c) for requirements of this determination; see 617.7(d) for Conditioned Negative Declaration)

The Town of Forestport, as Lead Agency, has determined the proposed Action will result in no adverse environmental impacts based upon a thorough analysis of identified relevant areas of environmental concern and input from the following involved agencies:

1. New York State Department of Environmental Conservation (NYSDEC – Letter 10-27-2021)
2. New York State Parks, Recreation and Historic Preservation (SHPO – Letter 10-19-2021)

Copies of the above correspondence(s) are on file at the Municipal Office, Town of Forestport, 10275 State Route 28, Forestport, NY 13338.

If Conditioned Negative Declaration, provide on attachment the specific mitigation measures imposed, and identify comment period (not less than 30 days from date of publication in the ENB)

Re: NYSEFC
Forestport Wastewater Treatment Plant Upgrades - Sewage Effluent Disinfection
Town of Forestport, Oneida County, NY

Dear Adam Keller:

Thank you for requesting the comments of the State Historic Preservation Office (SHPO). We have reviewed the project in accordance with Section 106 of the National Historic Preservation Act of 1966. These comments are those of the SHPO and relate only to Historic/Cultural resources. They do not include potential environmental impacts to New York State Parkland that may be involved in or near your project. Such impacts must be considered as part of the environmental review of the project pursuant to the National Environmental Policy Act and/or the State Environmental Quality Review Act (New York Environmental Conservation Law Article 8).

Based upon this review, it is the opinion of the New York SHPO that no historic properties, including archaeological and/or historic resources, will be affected by this undertaking.

If further correspondence is required regarding this project, please be sure to refer to the OPRHP Project Review (PR) number noted above.

Sincerely,

239 Review Project

Dear Jack Dodson,

The Department of Environmental Conservation (DEC) has received the above referenced submittal dated September 17, 2021 and received September 22, 2021. The DEC has no objections to the Town of Forestport being Lead Agency for this project.

The DEC offers the following checklist of items to be considered when evaluating the need for additional permits:

SPDES General Permit for Construction Activity (GP-0-20-001):

- ☒ The applicant states there will be less than 1 acre of disturbance therefore no Construction Stormwater permit is required.

Floodplain Development:

The developer must indicate whether any part of the project is located within a floodplain or regulated floodway.

- ☒ It appears your project may be a flood hazard area. Please contact your municipal flood plan administrator to determine if a Local Flood Plain Development Permit may be required.

Freshwater Wetlands and Article 15 Classified Water Courses:

- ☒ There are regulated streams on the property including a Class C(T) protected trout stream. Based on the submitted plans, it appears there will be no fill or disturbance to the bed and banks of the stream, however it is important to note that should plans change prior to or during construction, work in this area is likely to require a permit and you should contact us prior to proceeding.
- ☒ There are no NYS regulated wetlands within the project area however it is possible that federally regulated wetlands could be present. Federal Wetlands fall under of the jurisdiction of the US Army Corps of Engineers. For further info you may go to www.lrb.usace.army.mil or you can contact the Buffalo District office by emailing LRB.NewYork.RegActions@usace.army.mil or by phone at (716) 879-4330.

Any changes made to the plans submitted could have an impact on this determination.

Sincerely,

Brittany Stoots

Full Environmental Assessment Form
Part 2 - Identification of Potential Project Impacts

Agency Use Only (If applicable)

Project :

Date :

Part 2 is to be completed by the lead agency. Part 2 is designed to help the lead agency inventory all potential resources that could be affected by a proposed project or action. We recognize that the lead agency's reviewer(s) will not necessarily be environmental professionals. So, the questions are designed to walk a reviewer through the assessment process by providing a series of questions that can be answered using the information found in Part 1. To further assist the lead agency in completing Part 2, the form identifies the most relevant questions in Part 1 that will provide the information needed to answer the Part 2 question. When Part 2 is completed, the lead agency will have identified the relevant environmental areas that may be impacted by the proposed activity.

If the lead agency is a state agency and the action is in any Coastal Area, complete the Coastal Assessment Form before proceeding with this assessment.

Tips for completing Part 2:

- Review all of the information provided in Part 1.
- Review any application, maps, supporting materials and the Full EAF Workbook.
- Answer each of the 18 questions in Part 2.
- If you answer "Yes" to a numbered question, please complete all the questions that follow in that section.
- If you answer "No" to a numbered question, move on to the next numbered question.
- Check appropriate column to indicate the anticipated size of the impact.
- Proposed projects that would exceed a numeric threshold contained in a question should result in the reviewing agency checking the box "Moderate to large impact may occur."
- The reviewer is not expected to be an expert in environmental analysis.
- If you are not sure or undecided about the size of an impact, it may help to review the sub-questions for the general question and consult the workbook.
- When answering a question consider all components of the proposed activity, that is, the "whole action".
- Consider the possibility for long-term and cumulative impacts as well as direct impacts.
- Answer the question in a reasonable manner considering the scale and context of the project.

1. Impact on Land Proposed action may involve construction on, or physical alteration of, the land surface of the proposed site. (See Part 1. D.1) <i>If "Yes", answer questions a - j. If "No", move on to Section 2.</i>

f. Other impacts: _____ _____		<input type="checkbox"/>	<input type="checkbox"/>

16. Impact on Human Health

The proposed action may have an impact on human health from exposure to new or existing sources of contaminants. (See Part 1.D.2.q., E.1. d. f. g. and h.)

☒ NO

☐ YES

If "Yes", answer questions a - m. If "No", go to Section 17.

	Relevant Part I Question(s)	No, or small impact may occur	Moderate to large impact may occur
a. The proposed action is located within 1500 feet of a school, hospital, licensed day care center, group home, nursing home or retirement community.	E1d	<input type="checkbox"/>	<input type="checkbox"/>
b. The site of the proposed action is currently undergoing remediation.	E1g, E1h	<input type="checkbox"/>	<input type="checkbox"/>
c. There is a completed emergency spill remediation, or a completed environmental site remediation on, or adjacent to, the site of the proposed action.	E1g, E1h	<input type="checkbox"/>	<input type="checkbox"/>
d. The site of the action is subject to an institutional control limiting the use of the property (e.g., easement or deed restriction).	E1g, E1h	<input type="checkbox"/>	<input type="checkbox"/>
e. The proposed action may affect institutional control measures that were put in place to ensure that the site remains protective of the environment and human health.	E1g, E1h	<input type="checkbox"/>	<input type="checkbox"/>
f. The proposed action has adequate control measures in place to ensure that future generation, treatment and/or disposal of hazardous wastes will be protective of the environment and human health.	D2t	<input type="checkbox"/>	<input type="checkbox"/>
g. The proposed action involves construction or modification of a solid waste management facility.	D2q, E1f	<input type="checkbox"/>	<input type="checkbox"/>
h. The proposed action may result in the unearthing of solid or hazardous waste.	D2q, E1f	<input type="checkbox"/>	<input type="checkbox"/>
i. The proposed action may result in an increase in the rate of disposal, or processing, of solid waste.	D2r, D2s	<input type="checkbox"/>	<input type="checkbox"/>
j. The proposed action may result in excavation or other disturbance within 2000 feet of a site used for the disposal of solid or hazardous waste.	E1f, E1g E1h	<input type="checkbox"/>	<input type="checkbox"/>
k. The proposed action may result in the migration of explosive gases from a landfill site to adjacent off site structures.	E1f, E1g	<input type="checkbox"/>	<input type="checkbox"/>
l. The proposed action may result in the release of contaminated leachate from the project site.	D2s, E1f, D2r	<input type="checkbox"/>	<input type="checkbox"/>
m. Other impacts: _____ _____			

17. Consistency with Community Plans

The proposed action is not consistent with adopted land use plans.
(See Part 1. C.1, C.2. and C.3.)

☐ NO

☒ YES

If "Yes", answer questions a - h. If "No", go to Section 18.

	Relevant Part I Question(s)	No, or small impact may occur	Moderate to large impact may occur
a. The proposed action's land use components may be different from, or in sharp contrast to, current surrounding land use pattern(s).	C2, C3, D1a E1a, E1b	<input checked="" type="checkbox"/>	<input type="checkbox"/>
b. The proposed action will cause the permanent population of the city, town or village in which the project is located to grow by more than 5%.	C2	<input checked="" type="checkbox"/>	<input type="checkbox"/>
c. The proposed action is inconsistent with local land use plans or zoning regulations.	C2, C2, C3	<input checked="" type="checkbox"/>	<input type="checkbox"/>
d. The proposed action is inconsistent with any County plans, or other regional land use plans.	C2, C2	<input checked="" type="checkbox"/>	<input type="checkbox"/>
e. The proposed action may cause a change in the density of development that is not supported by existing infrastructure or is distant from existing infrastructure.	C3, D1c, D1d, D1f, D1d, E1b	<input checked="" type="checkbox"/>	<input type="checkbox"/>
f. The proposed action is located in an area characterized by low density development that will require new or expanded public infrastructure.	C4, D2c, D2d D2j	<input checked="" type="checkbox"/>	<input type="checkbox"/>
g. The proposed action may induce secondary development impacts (e.g., residential or commercial development not included in the proposed action)	C2a	<input checked="" type="checkbox"/>	<input type="checkbox"/>
h. Other: _____ _____		<input type="checkbox"/>	<input type="checkbox"/>

18. Consistency with Community Character

The proposed project is inconsistent with the existing community character.
(See Part 1. C.2, C.3, D.2, E.3)

☐ NO

☒ YES

If "Yes", answer questions a - g. If "No", proceed to Part 3.

	Relevant Part I Question(s)	No, or small impact may occur	Moderate to large impact may occur
a. The proposed action may replace or eliminate existing facilities, structures, or areas of historic importance to the community.	E3e, E3f, E3g	<input checked="" type="checkbox"/>	<input type="checkbox"/>
b. The proposed action may create a demand for additional community services (e.g. schools, police and fire)	C4	<input checked="" type="checkbox"/>	<input type="checkbox"/>
c. The proposed action may displace affordable or low-income housing in an area where there is a shortage of such housing.	C2, C3, D1f D1g, E1a	<input checked="" type="checkbox"/>	<input type="checkbox"/>
d. The proposed action may interfere with the use or enjoyment of officially recognized or designated public resources.	C2, E3	<input checked="" type="checkbox"/>	<input type="checkbox"/>
e. The proposed action is inconsistent with the predominant architectural scale and character.	C2, C3	<input checked="" type="checkbox"/>	<input type="checkbox"/>
f. Proposed action is inconsistent with the character of the existing natural landscape.	C2, C3 E1a, E1b E2g, E2h	<input checked="" type="checkbox"/>	<input type="checkbox"/>
g. Other impacts: _____ _____		<input type="checkbox"/>	<input type="checkbox"/>

Upon review of the information recorded on this EAF, as noted, plus this additional support information

and considering both the magnitude and importance of each identified potential impact, it is the conclusion of the _____ as lead agency that:

☒ A. This project will result in no significant adverse impacts on the environment, and, therefore, an environmental impact statement need not be prepared. Accordingly, this negative declaration is issued.

☐ B. Although this project could have a significant adverse impact on the environment, that impact will be avoided or substantially mitigated because of the following conditions which will be required by the lead agency:

There will, therefore, be no significant adverse impacts from the project as conditioned, and, therefore, this conditioned negative declaration is issued. A conditioned negative declaration may be used only for UNLISTED actions (see 6 NYCRR 617.7(d)).

☐ C. This Project may result in one or more significant adverse impacts on the environment, and an environmental impact statement must be prepared to further assess the impact(s) and possible mitigation and to explore alternatives to avoid or reduce those impacts. Accordingly, this positive declaration is issued.

Full Environmental Assessment Form
Part 3 - Evaluation of the Magnitude and Importance of Project Impacts
and
Determination of Significance

Part 3 provides the reasons in support of the determination of significance. The lead agency must complete Part 3 for every question in Part 2 where the impact has been identified as potentially moderate to large or where there is a need to explain why a particular element of the proposed action will not, or may, result in a significant adverse environmental impact.

Based on the analysis in Part 3, the lead agency must decide whether to require an environmental impact statement to further assess the proposed action or whether available information is sufficient for the lead agency to conclude that the proposed action will not have a significant adverse environmental impact. By completing the certification on the next page, the lead agency can complete its determination of significance.

Reasons Supporting This Determination:

To complete this section:

- Identify the impact based on the Part 2 responses and describe its magnitude. Magnitude considers factors such as severity, size or extent of an impact.
- Assess the importance of the impact. Importance relates to the geographic scope, duration, probability of the impact occurring, number of people affected by the impact and any additional environmental consequences if the impact were to occur.
- The assessment should take into consideration any design element or project changes.
- Repeat this process for each Part 2 question where the impact has been identified as potentially moderate to large or where there is a need to explain why a particular element of the proposed action will not, or may, result in a significant adverse environmental impact.
- Provide the reason(s) why the impact may, or will not, result in a significant adverse environmental impact
- For Conditional Negative Declarations identify the specific condition(s) imposed that will modify the proposed action so that no significant adverse environmental impacts will result.
- Attach additional sheets, as needed.

Based on the information obtained from the involved agencies and completion of EAF Part 2 and Part 3 the proposed project will have no significant environmental impact.

1. Impact to Land. The groundwater table is greater than three feet below grade. Best management shoring (trench boxes)/dewatering practices shall be implemented during construction. Erosion and sedimentation control measures will be implemented to comply with a General SPDES permit for storm water. No slopes greater than 15%; exposed bedrock is onsite; no excavation of materials exceeding 1,000 tons; no construction beyond one year; no increased erosion; and the project is not located in a Coastal Erosion hazard area.

3. Impact on Surface Water. The proposed action will not impact the existing outfall; wetlands or any water bodies.

4. Impact on Groundwater. Water supply is not located near the proposed work.

5. Impact on Flooding. All work will be performed above the 100 year flood.

6. Impact on Agricultural Resources. No farms are located near the proposed work.

9. Impact on Aesthetic Resources. Project is at an existing Wastewater Treatment Plant Facility. Aesthetics would not change from existing conditions.

15. Impact on Noise, Odor, and Light. The proposed action may produce sound above noise levels by local regulations. The project is located in a rural non-farm neighborhood and construction equipment will produce sound above normal levels but less than local regulations. Blasting may be required. Odors may increase locally in the project area during construction, however, best management practices will be implemented to reduce odors.

17. Consistency with Community Plans. Proposed project is at an existing Wastewater Treatment Plant Facility and will not change the land use.

18. Consistency with Community Plans. Proposed project is at an existing Wastewater Treatment Plant Facility and will not change the character of the area.
